COHIBA SIGLO II

440

Made from the finest Vuelta Abajo tobacco, the Siglo II is inviting to look at, tender to touch and a treat to the palate. This Petit Corona sometimes seems out of place among the other more attractive Cohiba vitoles, but this small cigar works hard to make its mark.

Actual Size: 129 x 16.54 mm

COHIBA ROBUSTOS

780

"This Cohiba Siglo Vitola makes Robusto one of the most popular Habanos on the market. This is a real gem and cannot be confused with a simple thick cigar. This is one of the problems that define Robusto. This is the most complete."

HOYO DE MONTERREY EPICURE NO.2

440

The size has been around for decades and is a favorite among fans of Cuban cigars for its delicate nuance, complexity and aroma. Not that this is a mild cigar. Subtlety and mild body aren't exactly the same thing, and the Epicure No. 2 is a case study in how a cigar can deliver layers of flavor while preserving delicacy and sophistication

Actual Size: 124 x 19.84 mm

HOYO DM PETIT ROBUSTOS

330

The first third starts with a typical peppery Cuban blast, then quickly deploys cocoa and chocolate notes, some more subtle flavors like nutmeg and almonds. The second third is woody. The finish is full of flavors.

Actual Size: 102 x 19.84 mm

Cigar List

H.UPMANN No2

440

Earthy flavours of wood, nut and coffee bean at the forefront, with a silky smooth smoke that starts out at a light medium strength. Additional flavours of leather and touches of sweetness from almond and honey notes came and went. The smoke output significantly increased by the halfway point as well as the strength, reaching a full medium and finishing there.

Actual Size: 155 x 20.42 mm

H.UPMANN MAGNUM 54

480

The first third of the cigar is of a light to medium strength, with lovely flavor intensity and a nice creamy texture. The flavors linger directly in the middle of the palate giving a sense of harmony and equilibrium. The element I first came across is the lovely sweetness of this cigar which is well balanced by the acidity due to the youngness of the smoke.

Actual Size: 120 x 21.26 mm

ROMEO Y JULIETA SHORT CHURCHILLS 410

Packed with punchy flavor, this is a medium bodied cigar that feels stronger than it actually is. Smoking this Robusto is like jumping into a Churchill in the middle of its best phase. Notes of tangy

Actual Size: 124 x 19.84mm

TRINIDAD VIGIA

550

This is a fantastic cigar. We get the creamy, comfort smooth blend that we all look for from a Trinidad, but this comes in a 54 ring and Petit Robusto package, which makes this cigar a little bit nervy. The result is one of the best Trinidad smokes we've ever enjoyed. Whilst other Trinidad formats are being discontinued, the Vigia is here to stay. Time will improve this cigar into another dimension.
